Discover the Southern Ocean as you have never seen it before! Embark on a **15-day polar expedition cruise to the highest latitudes**, from the **Falkland Islands** to the immaculate lands of **Antarctica**.

Your polar expedition begins with the exploration of the Falkland Islands: as you sail in this archipelago of 200 islands, you will be escorted by sei whales. Composing the wild beauty of the shorelines are beaches of white sand, jagged cliffs, windswept moors and tall grass swaying with the wind. This is the perfect setting for the black-browed albatrosses watching from above, the Gentoo and king penguins, elephant and fur seals, and sea lions. On board, admire the spectacle of endless moors interspersed by the bays and coves punctuating the coastline.

You will ultimately land on the frozen shores of the nearly inaccessible **White Continent, Antarctica**. White shades take on a thousand nuances as it covers the icebergs, glaciers, mountains and frozen sea all around you. You will be one of the rare few travellers to have laid eyes on this legendary land, the theatre of the greatest expeditions and the witness of the most extraordinary adventures. During an outing on land or at sea, in a Zodiac dinghy or a kayak, you will move through a stunning decor bathed in polar light. Above all, you are in the **realm of the penguins** – Adelie, Gentoo, chinstrap – seals, whales and seabirds that accompany you on this unforgettable trip.

We are privileged guests in these extreme lands where we are at the mercy of weather and ice conditions. Landings on certain sites and the observation of certain wildlife cannot be guaranteed. They vary from day to day, making each PONANT cruise a unique experience. The Captain and the Expedition Leader will make every effort to ensure that your experience is as rich as possible, while complying with the safety rules and instructions imposed by the IAATO.

NEW ISLAND

Arrival 4/11/2024
Departure 4/11/2024

This island with its distinctive jagged relief is located on the western edge of the **Falkland Islands** and is home to a tiny village of two families. Step onto the golden sand of its flower-lined beaches, beside which an old stone house still stands, and you'll feel like you've entered a natural paradise. A narrow pathway weaves around typical Falkland moorlands. Follow it and in under 20 minutes you'll find yourself at the heart of a colony of southern **rockhopper penguins, black-browed albatross and imperial shags**. It's the perfect opportunity to watch the albatross swoop down from the cliffs and skim the waves that crash against the rocks on the exposed side of the island.

GRAVE COVE

Arrival 4/11/2024
Departure 4/11/2024

Make your way through the turbulent Woolly Gut strait and emerge in the stillness of **Grave Cove**. Located in the northern edge of **the Falkland Islands**, this bay owes its name to the vestiges of whalers' graves that overlook the beach. As you step off the boat and onto the white-sand beach, you might find yourself escorted by a few hospitable **Commerson's dolphins**, elegantly adorned in black and white. A stroll along the grassy dunes will lead you to a vast plain of lush green grass, tended by a few sheep. On the other side of the island you'll find one of the largest **gentoo penguin** colonies in the area. With some luck, you'll also glimpse a sea lion scouring the waves for his next meal.

VOLUNTEER POINT

Arrival 5/11/2024

Departure 5/11/2024

A peninsula located at the far north-east of the **Falkland Islands**, Volunteer Point, named after the ship *The Volunteer* which called there in 1815, promises moving encounters in the heart of totally unspoiled nature. Due to its exceptional birdlife, the spot is identified as an Important Bird and Biodiversity Area (IBA) and is, above all, renowned as the home of the island's largest **king penguin** colony. These elegant birds, which are expressive and not particularly timid, will offer you moments of pure awe and the opportunity to take magnificent photos. You'll certainly be touched by the fledglings, dressed in their thick brown plumage.

PORT STANLEY

Arrival 5/11/2024

Departure 5/11/2024

Situated at the far eastern end of the **Falklands' largest island, Port Stanley**, is the capital of this remote archipelago in the South Atlantic, composed of nearly 700 islands and islets. In 1764, **Louis Antoine de Bougainville** settled the first pioneers here and the port grew rapidly. Placed under the Spanish crown in 1767, then under British sovereignty since 1833, the town has retained some South American features fused with the **Victorian style** that punctuate the city, and the houses with their colourful roofs brighten the moorland landscapes with their windy and harsh climate reminiscent of the Scottish islands of Orkneys or Shetland. In front of the Cathedral, built in 1933, an arch made of whale jaw bones reminds us that Port Stanley was once a whaling port.

AT SEA

Arrival 6/11/2024

Departure 7/11/2024

During your journey at sea, make the most of the many services and activities on board. Treat yourself to a moment of relaxation in the spa or stay in shape in the fitness centre. Depending on the season, let yourself be tempted by the swimming pool or a spot of sunbathing. This journey without a port of call will also be an opportunity to enjoy the conferences or shows proposed on board, depending on the activities offered, or to do some shopping in the boutique or to meet the PONANT photographers in their dedicated space. ANTARCTIC PENINSULA

Arrival 8/11/2024

Departure 13/11/2024

Succumb to the magic of a place unlike any other. To this day, the mythical **Antarctic Peninsula** still holds real fascination and promises its visitors unforgettable moments. Throughout your adventure in this icy realm, you will find yourself in the heart of a **spectacular decor** in subtle shades of blue and white, surrounded by **exceptional wildlife**. Penguins, humpback whales, seals and giant petrels are at home here, as are elephant seals, fur seals, Antarctic minke whales, and orcas. Depending on which sites you will be lucky enough to visit, you may get the chance to observe them and share with them the beauty of these extreme parts.

Each day, based on ice conditions, the Captain and the Expedition Leader will suggest **zodiac outings or landings** to discover the infinite riches of the Antarctic Peninsula. Glaciers, ice floe, tabletop icebergs, mountain peaks that plunge straight into the sea, volcanic beaches, research stations, enchanting bays, and vestiges of the whaling industry: these are the faces of the Antarctic that will likely reveal themselves to you, in a hushed and surreal atmosphere. You will sail in the wake of Jean-Baptiste Charcot, Adrien de Gerlache and Sir Ernest Shackleton, great Antarctic explorers who, from the 19th century, set out to conquer these remote and uninhabited lands.

CROSSING THE DRAKE PASSAGE

Arrival 14/11/2024

Departure 15/11/2024

If there is one place, one sea, one waterway dreaded by tourists, researchers and hardened seafarers alike, it is undoubtedly **Drake Passage**. Situated at the latitude of the infamous Furious Fifties winds, between Cape Horn and the South Shetland Islands, it is **the shortest route to connect Antarctica to South America**. Seasoned navigators will tell you that you must earn your visit to the White Continent! As the Antarctic convergence zone where cold currents rising up from the South Pole meet warmer equatorial water masses, Drake Passage harbours a very diverse marine fauna. Don't forget to look to the sky to catch a glimpse of elegant albatross and **Cape petrels**, playfully floating about in the wind around your ship.
